

Lakeside Dental
COMMITMENT TO CARE

Instructions to follow prior to **Implant Placement**

NOTE: Vitamin D is being shown to play an important role in healing. We encourage ensuring adequate Vitamin D levels and/or taking Vitamin D supplement.

Starting 3 days prior to appointment:

-Take Antibiotic as prescribed:

Amoxicillin 875mg 1 every 12 hours

OR

Zpack (azithromycin) 500mg first day, 250 mg following 4 days

-Rinse everyday with Peridex (Chlorhexadine)

And as always, if you have any questions or concerns, please call our office **(406) 844-3825** at anytime. Thank you.

Ben Bushnell, DDS and staff
